

ABE IT CONSULTING LLC

ABE IT CONSULTING LLC is a software development organization.

PREFERRED EMR offers an Electronic Health Record (EHR) software solution package for small to medium size medical clinics.

Most EMR systems are designed for large hospitals and medical institution with an exorbitant price tag non affordable for small and medium size clinic.

PREFERRED EMR is a very affordable, secured and efficient medical software solution for small to medium size clinics.

PREFERRED EMR offers medical clinics a very affordable and secured online software solution to conduct daily health care business activity.

The screenshot displays the GARBA EMR software interface. At the top, there is a menu bar with options like File, Edit, View, Tools, Windows, and Help. Below the menu, there are several tabs for navigation: Patient, Appointment, Billing, Database, Reports, Admin, CPT Service, and Document Scanning. The main interface is divided into several sections:

- Patient Selection:** A table with columns for Patient_ID, Title, Physician, SSN, Patient_FName, Patient_MName, Patient_LName, and Age. The table contains several rows, with the fifth row (Patient_ID 5, Dr. Laurence, 456-89-56...) selected.
- Patient Details:** Fields for SSN# (456-89-5610), First Name (AHMED), Middle Name (A), Last Name (PAPA), Ethnicity (Indian), DOB (7/21/2012), Age (0), Marital Status (Married), and Sex.
- Physical Measurements:** Height (5.2), Weight (156), BMI Check, and Body Mass Index (28.23) with a result of Overweight.
- Vital Signs:** Blood Pressure (SYS: 156, DA: 180), Blood Pressure (PULSE), EKG, and Blood Work (Urine T).
- Swim Lane Diagram:** A diagram on the right side showing three lanes for Patient, Receptionist, and Nurse, each with a 'Log In Sign In' button.
- Visit Records:** A table with columns for Patient_ID, Visit_Date, Reason_for_Visit, and Doctor_ID. It shows three visits, with the second visit (Patient_ID 11, 9/8/2010, HEART B..., Peptic ul...) selected.
- Doctor's Note:** A text area containing a note about Peptic ulcers, mentioning Helicobacter pylori (H. pylori).

It is very easy to use and offers powerful appointment scheduler, patient record keeping and patient billing system will add value to daily health clinic operation.

PREFERRED EMR is a paperless solution confine with HIPAA digital record storage rules and regulation.

Paper-based records require a significant amount of storage space compared to digital records. In the United States, most states require physical records be held for a minimum of seven years. The costs of storage media, such as paper and film, per unit of information differ dramatically from that of electronic storage media. When paper records are stored in different locations, collating them to a single location for review by a health care provider is time consuming and complicated, whereas the process can be simplified with electronic records.

PREFERRED EMR Software Solution is seeking investment or loan to upgrade their Electronic Medical Record Software Solution to be available online.

An online solution will be more accessible and very cost effective for medical clinics.

PREFERRED EMR Software Solution, corporate strategy of virtual office and data cloud storage are proven concept to cut cost and add value to your business.
